GURAL THEATRE SPECIFICATIONS

*** All measurements based off of architectural drawings. These will be verified onsite at the end of construction. ***

ROOM DIMENSIONS

- 34'-9" depth (booth to dressing room) x 32'-8" wide
- Stage size varies depending on seating configuration. There are seven different seating configurations under review for PA approval.

STAGE FLOOR:

- Masonite over three layers of plywood, painted black.

GRID STRUCTURE

- Dead hung pipe grid at 13'-9" with pipe spaced at 4'-10".

UNISTRUT:

- Unistrut is mounted vertically in the perimeter walls at various spacings.

BOOTH:

- Booth is equipped with windows overlooking the theatre and lobby with half the panes able to be opened
- Lockable cabinet for valuables is located in the booth.
- Booth layout cannot be rearranged without approval by A.R.T./New York staff.

LOBBY:

- The lobby is outfitted with a small pipe grid with pipe spaced at 7'-4" north to south and 6'-11" east to west.
- (3) L21-20 outlets are located at grid height in the lobby to power S-21 dimmer sticks. Please see drawing for exact locations.
- There is a cable pass-thru from the booth to the lobby at grid height.

PLANS AVAILABLE

- Ground plans, sections, grid plans in VWX, DWG, and PDF format.
- We recommend that you do your own site survey.

DRESSING ROOMS

There are two ADA-compliant dressing rooms accommodating up to 3-4 people each. Each is equipped with a counter, chairs/stools, mirrors, a sink, one wardrobe rack, one Equity cot, and audio stage monitors. The dressing rooms have shared access to a toilet and shower. The dressing rooms open directly to stage.

WARDROBE

A shared wardrobe area consisting of two washers/dryers is located in the Mezzanine Theatre. Laundry schedules must be coordinated with A.R.T./New York. The company must provide all laundry detergent, hangers, costume maintenance equipment and materials needed for the production. These items shall be clearly labeled and kept in a designated area.
